

Ecovillage Design Southwest & Village Design Institute

Present:

May East

CEO of CIFAL Findhorn, a United Nations
Associated Training Centre in Scotland and
Director of Gaia Education

Speaking on:

Ecovillage Model: New Approaches to Urban Regeneration

September 8th 2007 at 11 am—1 pm

Auditorium at University of New Mexico (UNM) Conference Center
1634 University Blvd. NE, Albuquerque, NM

Suggested Donation \$5

No where on earth is the need for ecological understanding greater and more urgent than in cities where human activity is most intense.

This talk will present an integrated model for sustainability encouraging environmentally responsible design and development of our North American cities.

We will be examining a systemic new approach for addressing sustainable urbanization, as promoted by the Global Ecovillage Network (GEN), a worldwide network of sustainable human settlements and initiatives.
